K 28 NC

- Integrated active noise reduction
- Airplane and stereo adapter included
- 3D−Axis (unique folding mechanism)
- Approx. 40 hours playing time with low battery warning
- Belt clip for convenient storage
- Carrying bag included
- Closed−back type

Forget the noisy part of traveling.

The K 28 NC turns every trip by plane, train, or bus into a relaxed listening session. An integrated active noise reduction filter reduces noise−related stress to a minimum: for fatigue−free, restful traveling.

The K 28 NC provides excellent comfort and, thanks to the unique 3D−Axis folding mechanism, takes up almost no space in your traveling bag.

And that's how the K 28 NC works:
